MAIRESO

Massachusetts Inventory & Retail Solutions

Offer Financial and UPC Inventories
For all Convenience, Grocery, Retail,
Liquors stores, Etc.

Remember in business every penny counts

Scan Barcodes Inventories

This type of inventory will provide the customer the items specific counts as well as financial reporting information to compare with their automatic system (**POS**) and their accounting book value.

Focus on What we Do Best

. **MAIRESO** will engagement with you specific requirements:

A: Counting room by room all merchandise in your location.

B: Reconciling all new merchandise Found.

C: Reconciling your updated inventory with your existing data.

We also work with you software provider to create an import data that will direct input our output data into your system.

Some of the problems the our small business going through is the high shrink, damages and outdate merchandise.

MAIRESO provide the solutions that decrease or complete eliminated this issues. Allow the business owners to have the opportunities to control and take better decision for their business.

Financial Retail Inventories

This inventory will provide the financial reporting to compare to your accounting book value.

A financial count is accomplished by capturing the items retail price multiplied by the physical quantity and identifying the department.

The information will be provided to the customer by recapping the totals by area/location and department.

Physical Inventory Takers

We provide a Physical count on Financial and Scan Bacorde level with the most high Quality, Accuracy and Efficiency.
